

MARINE SERVICES AGENTS | EMEAR

ISI-FISH SAS

Created in January 2007, ISI FISH is an innovative company in the fishing industry and a key partner of world leaders in instrumentation and satellite services for pelagic fleets. Based in Concarneau, and recognised for our expertise and know-how, we have established a network of partners and customers through our regular involvement in the world's major fishing areas: Spain, Reunion Island, Seychelles, Mauritius, New Caledonia, French Polynesia, the United States, and the west coast of Africa.

Fridrik A. Jónsson Ehf.

The companies Fridrik A. Jónsson and Marás are powerful service and sales companies serving the fishing industry, selling SIMRAD sailing equipment and YANMAR machines that have proven excellent in Icelandic conditions. The companies are owned by the same parties, and Marás specializes in hardware and Friðrik A. Jónsson in navigational equipment. In 2007, Marás Friðrik A. Jónsson bought, but it is worth mentioning that the company is 70 years of age. But with that addition, it was possible to service both the machine and the bridge, all in one place.
